

CollaborateCom 2009 --- CALL for WORKSHOP PROPOSALS

Proposals are solicited for workshops to be held in conjunction with CollaborateCom 2009. Each workshop provides a forum to address a specific topic at the forefront of collaborative computing research.

A workshop must be full day in length. As part of the CollaborateCom'09 proceedings, all workshop papers will be available (on a CD) to the workshop attendees.

Workshop Proposal Submission Guidelines:

For **new workshops**, proposals should include:

- Workshop title
- A draft "Call for Papers" articulating the scope and topics covered by the workshop
- A brief summary and justification for the workshop, including anticipated benefits to the CollaborateCom community.
- Planned activities
- Expected number of submissions and acceptance rate
- Expected number of attendees
- Program chair(s), and, if available, tentative program committee
- A one-paragraph biographical sketch for each organizer, describing relevant qualifications, including research and conference/workshop organizing experience

For **previously-held workshops**, in addition to the above, proposals must provide the following information, for the most recent incarnation of the workshop:

- Number of submissions
- Number of accepted papers
- Number of registered attendees
- URL of the previous event (should post the previous CFPs)

Please submit workshop proposals by email to the CollaborateCom Workshop Chairs, Gail-Joon Ahn (gahn@asu.edu) and Heri Ramampiaro (Heri.Ramampiaro@idi.ntnu.no). All workshop proposals will be reviewed by the Workshop Chairs.

Proposal Evaluation Criteria

- The workshop is within scope of collaborate computing and concerns a coherent and worthwhile technical topic.
- Its likely impact on the target community, including likely high participation.

Important Dates

- Submissions deadline: May 10, 2009 (early submissions are welcome)
- Decisions communicated: May 31, 2009
